

## Beautiful Boule crystal spiral clock is an orb of extravagance

Monday, 08 March 2010

231 intricate parts go into the design of this clock.

It is a 2.2-pound ball of crystal excess.

The spiral is fashioned from white gold and 25 jewels, as it seems.

It can be yours from Hermés Paris ([www.worldtempus.com/en/brands/partner-brands/hermes/exceptional-timepieces-presented-at-baselworld-2009/8-days-spiral-boule-clock/](http://www.worldtempus.com/en/brands/partner-brands/hermes/exceptional-timepieces-presented-at-baselworld-2009/8-days-spiral-boule-clock/) ) for just \$560,000. Ahh!!!
